Notes:

- 1 Sites was seeded in 2009. 2011 is the second year of data.
- 2 Miocene - H. Starr, Miocene Ranch - dryland at high elevation (3400') no irrigation
- 3 Only one cut at Miocene site due to drought. (non-irrigated site)
- 4 Carleton bromegrass (check variety) failed to germinate at all plots at all four sites seeded in 2009.
